

CLEANSING ESSENTIALS SET

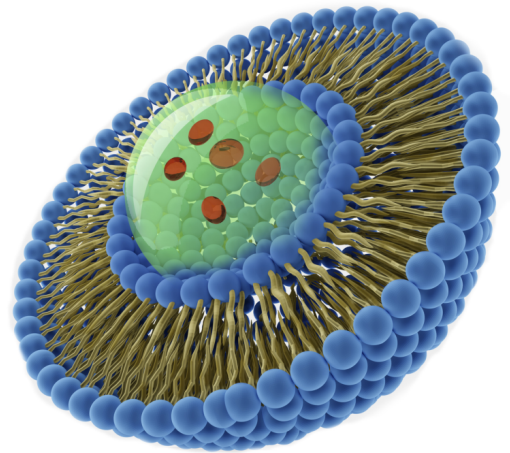

Not your traditional cleansing oil

Typical oil cleansers work great for preserving natural skin oils but don't wash off completely, leaving your skin feeling greasy. Our cleansing oil uses two special botanical-based fatty acids that when in contact with water, creates a mild cleansing action to leave the skin feeling soft cleansed, and not greasy.

We redefine how you clean your skin by using gentle yet effective oils to remove unwanted dirt, makeup, and oil without stripping your skin of what it needs.

This oil cleanser forms micelles around the materials we wish to wash away such as dirt, makeup, oils, etc. These micelles encapsulate them allowing these unwanted materials to wash off with just water. Typical cleansers create these micelles but use detergents that can break down our skin barrier and cause irritation.

micell removing dirt, makeup, oil, etc.

With this Cleansing Essentials Set you can complete your Epicutis Simple System. Use the Cleansing Oil, Lipid Serum and Hyvia Crème to --

CLEANSE, TREAT, and HYDRATE your skin.

CLEANSING ESSENTIALS SET

Not your traditional cleansing oil

Oil Cleanser

Meadowfoam Seed Oil and Sunflower Seed Oil help unclog pores while melting away makeup, dirt, sebum, and sunscreen – creating a combination of powerful responsibly sourced botanicals to clean your skin the right way.

Cleansing, Soothing + Refreshing Ingredients:

- Hyvia® to boost hydration and strengthen the skin barrier
- Hinoki Wood Oil to cleanse and relax skin
- Meadowfoam Seed Oil to unclog pores and hydrate
- Sunflower Seed Oil to melt away dirt and makeup

Recommended Use: Use once or twice daily

INSTRUCTIONS FOR USE: Apply EPICUTIS Oil Cleanser to a dry face. Dispense 2-3 pumps of Oil Cleanser to clean hands, and use fingertips to gently massage the cleanser into your skin in gentle, circular motions. Rinse with water. If using Oil Cleanser to remove makeup, perform two washes: one to remove makeup and impurities, and the second to fully cleanse the skin. Use twice daily.

Enzyme Exfoliating Powder

Rather than using microbeads or acids, our exfoliator harnesses the activity of natural enzymes to help gently break down dead skin cells and excess oils to boost turnover.

Natural enzymes Protease and Lipase work to boost natural turnover, while Sodium Lauroyl Glutamate aids in gently cleansing the skin without stripping away essential moisturisation.

Skin-Renewing + Exfoliating Ingredients:

- TSC promotes skin repair while helping calm skin
- Protease & Lipase boost natural skin turnover
- Sodium Lauroyl Glutamate cleanses skin while retaining hydration

Recommended Use: Add to oil 2-3 times per week

INSTRUCTIONS FOR USE: After cleansing, dispense a teaspoon-sized amount of EPICUTIS Enzyme Exfoliating Powder into clean hands. Combine with water, or 1-2 pumps of EPICUTIS Oil Cleanser for a richer experience. Rub hands together to dissolve the Enzyme Exfoliating Powder, then use fingertips to massage the mixture into your skin in gentle, circular motions, avoiding the eyes. Massage gently for about 1 minute. Rinse with water. Use 2-3 times per week at night.
